Misc TidBits	-	EMPTY!
Shoplifting -		EMPTY!

Poke III is completely full of sound samples. So much so that when it was originally mastered some of samples did not make it on the master disc (but the folder names did!). In the folder Training Records (a sub-folder of Vokal) there are two folders with nothing in them "Shoplifting" and "Misc TidBits." Also part of Generic Phrases. Hey... nobody's perfect... you're still getting one hell of deal on this sound library!

end of Poke III sound file list... whew!
